

Kentree HOB0 Hand Control (3HA64B)

The redesigned Kentree HOB0 Hand Control is the result of intense research and development, and will replace the existing Hand Control. Robust and reliable, this Hand Control has been ergonomically designed to best suit the needs of the EOD/IEDD operator:

- ◆ Designed for one-handed operation
- ◆ Suitable for right-handed and left-handed operators
- ◆ Simple intuitive interface
- ◆ Advanced safety features
- ◆ Operates with new and existing HOB0 Drive Boxes

OVERVIEW OF NEW DESIGN

Ergonomically designed to maximise user convenience and efficiency, the Hand Control shall be held in one hand and operated with the other.

The Joystick, clearly seen in the photo on the left, controls the HOB0 Drive and Speed. The Switch on the right of the Hand Control as it is pictured (left) will be used to select HOB0 functions. These functions will then be controlled with a simple toggle switch.

Newly designed attachments will ensure that there is no strain or damage to the cable during operation.

The HOB0 Enable button (visible in the top photo), will be depressed during operation with the same hand used to hold the Control. On release of this button,

TECHNICAL DATA

Length	182mm
Width	64mm
Height	152mm
Weight	1.5Kg (including cable and attachments)
Length of Cable	2.5m
Power Source	Powered by vehicle battery
Part Number	3HA 64B
Storage	Hard Shell Storage box with shaped foam insert
